

Six of our members are taking their School Certificate examination this term, and we wish them the best of luck. Five of them are afterwards visiting Wales to cut down timber.

We are pleased to see the great zest shown by our juniors in "digging for victory," and much hard work has been done by the Fire Party, consisting of A. Williams, G. Slater and P. Hughes.

At the end of this term we shall be losing D. C. Bigg, and we wish him the best of luck in his future career.

The House has suffered a deep loss through the death, in action, of Capt. P. K. Campbell, who was one of our "founders" in 1923, and who, throughout the years, maintained a real interest in our activities and progress.

---

### **MILL HILL HOUSE.**

On returning for the Summer Term, we found that P. A. Ayling, D. Chapman, C. C. Aldridge, W. A. Hick and D. W. Stevens had left; we wish them every success in their careers. We were able, however, to welcome this term D. R. Pettit and D. J. Pettit.

We congratulate M. F. Dartnall on playing for the Second XI.

Great enthusiasm has been shown over the new allotments, and although we are the smallest house, we have the greatest number of plots.

We must also congratulate J. D. Chamberlain, L. R. Miller and E. G. Hill on coming top of their respective forms.

Under the guidance of Mr. Hazelton, three members of the House have been trained in elementary fire-fighting, but we hope we will never have to use the stirrup-pump for anything grimmer than watering the Middle Pitch.

As the House is so small and the most athletic members left last term, we have not achieved much success in sport.

In passing, we may mention that the air raid shelters were just finished in time for our first proper air raid.

We are sorry to lose E. G. Hill and R. G. Hill who are going to Canada under the Overseas Evacuation Scheme.
